

"Planning a three-week trip to Europe in 2022 with my 20-year-old grandsons proved to be a daunting task. The last time I went to Europe my husband and I simply purchased a Eurorail pass, American Express Traveler's checks and went. My how things have changed!

I was spending hours researching possible COVID restrictions in each country and trying to determine the places where we would feel safe and comfortable staying in our target cities. I was getting pretty frustrated when a friend recommended Jan's Adventures travel service to me. What an extraordinary find she was. I gave Jan the overall plan (four countries), our general budget, and what we had in mind to do. Before long an itinerary was coming together, along with recommended detailed train time schedules and transfers, places to stay, recommended restaurants, and a list of our target sights along with additional wonderful suggestions. She also recommended useful apps, driving routes, and tours.

The bonus beauty of her organized planning is that the proposed itinerary had embedded links! I could simply click on the link and finalize my desired reservations.

Within days, the stress (and a little panic) of planning started to melt away and excitement pushed its way back in. I cannot recommend highly enough involving Jan as your travel planning partner!"
